Netcetera AG
Zypressenstrasse 71
Zurich 8040
Switzerland

March 15, 2022

Dear Michael,

We are pleased to advise you that Netcetera AG has been certified for Discover's ProtectBuy® program utilizing the following 3-D Secure Server software product:

3DSS
Product Provider Name: Netcetera AG
EMVCo 3-D Secure Version: 2.2.0

This notice of certification applies only to the product(s) identified above. A product shall not be promoted as certified for ProtectBuy if any aspect of the product differs from what was submitted for certification. You must notify Discover of any updates to the certified product to determine if re-certification is required.

Enclosed are the certification results for the tests performed for authentication. If you make changes to your authentication processing platforms and/or systems, it may be necessary to re-certify your configuration before implementing such changes in production.

Even though this product was certified by Discover for ProtectBuy, you are liable for the use and distribution of the product. This notice of certification should not be considered an endorsement or warranty of the functionality, quality or performance of the product or any services you provide to your clients in connection with the product.

To report production related issues, please contact our Command Center, 24x7, at 1-224-813-7200 (International) or 1-800-473-5570 (US) to open a ticket.

Thank you for your participation and support.

Sincerely,

Geetah Krishnan
