

# Secure digital payments

Solutions and services for card issuers, PSPs and merchants

Netcetera gives you long-standing experience and unparalleled knowledge covering the entire spectrum of the payment industry and providing secure digital payments for all relevant card schemes.

## Delivering digital excellence in payments and banking

- ✓ Increase your conversion rate, number of touchpoints with your customers and overall number of transactions through a seamless user experience
- ✓ Compliant with PCI, PSD2 and all relevant schemes
- ✓ A single solution and service provider connecting networks, issuers and merchants

### Solutions for issuing banks and card issuers

- Secure e-commerce checkouts compliant with PSD2 and 3DS 2.X
- Control over customer digital payment and banking touchpoints
- Mobile payment, card management and value added service in one offer
- Contactless payments based on scheme tokenization to scale internationally

### Solutions for payment service providers, merchants and acquiring banks

- Unrivaled security and liability shift to card issuers
- Mobile and web solutions compliant with 3DS 2.X
- Increased conversion in checkout apps and websites
- Security for card-based transactions with scheme tokenization
